To whom it may concern,

I am writing to express my interest in applying for the part time position of Venue IT Support Representative. I am a rising Junior at Syracuse University majoring in Information Management and Technology at the School of Information Studies. Technology has always been a passion of mine, along with offering support to others. I am well versed in both Windows and MacOS as well as various different pieces of software. I also have experience in both computer hardware, as well as networking hardware. My senior year of high school I was given the opportunity to TA my school's AP Computer Science course. During this time, I learned how to identify problems students were facing and how to effectively communicate a solution. Lastly, I've had the experience of both performing and being a member of stage crew in various productions. I know how to work under the pressure of a live production, and the importance of this role.

I'm available to begin work as soon as June 3 and will be in the area until the end of August when I return to college. I would also be willing to work over my Winter Holiday break which runs from mid-December to late January. I have my own transportation and am flexible on work days and times.

Thank you for your consideration. I look forward to hearing from you soon.

Sincerely,
Will Reale
